

I'm Jose Federico Carra Vega Senior UX/UI Designer

I work closely with users, stakeholders and POs to understand and define design solutions for Digital Products. My workflow is based on HCI Principles, always studying the user and context of use first.

Work experience

October 2020 - Present

Senior UX/UI Designer

Siemens Gamesa / Bilbao

Tasks: As a Senior UX/UI in Siemens Gamesa I do Interaction Design and Visual Design tasks for renewable energy projects (Wind Power Plant and Turbines configuration projects)

Also contributing with the UX Design good practices definition and creation of specific workflow-processes for SG Organization. Always working together with my UX Team colleagues.

Collaboration with MDS (Modular Design System Team) for the definition of modular components for different specific projects within the renewable industry.
